# X-FACTOR Off-Road

Combine luxury and durability, and you have the Franklin X-Factor Off-Road Range. Designing luxurious caravans with sophistication and practicality in mind is second nature to the team at Franklin Caravans, and the X-Factor is no exception.

The aluminium interlocking structure, set upon an Australian-made chassis with Cruisemaster independent suspension, provides the strength needed to travel this vast and diverse country of ours. Rounding out the durable timber free frame construction is a one-piece sandwich panel fibreglass insulated roof and composite flooring for reduced weight and improved comfort. Our range starts from a convenient 17'6" van with no compromises; through to a spacious 22'5" van with rear club lounge and centre ensuite, so you can enjoy a more comfortable ride when towing across Australia and even more comfort when relaxing inside your new van.

Take advantage of Franklin's latest X-Factor Off-Road range and Get Connected to Your Lifestyle.
